AIRWays Reporting Quick Guide

The AIRWays Reporting System allows you to access your summative test results.

How to Log In

How can I log in to the AIRWays Reporting System?

1. Navigate to the portal.
2. Select the “Test Administration Guidance” card.
3. Click the AIRWays Reporting card. The login page appears.
4. On the login page, enter the email address and password you use to access all AIR systems.
5. Click Secure Login.

Published 11/11/2019

a. If the **Enter Code** page appears, an authentication code is automatically sent to your email address. You must enter this code in the **Enter Emailed Code** field and click **Submit** within 15 minutes.

   - If the authentication code has expired, click **Resend Code** to request a new code.

b. If your account is associated with multiple institutions, you are prompted to select a role. From the **Role** drop-down list, select the role and institution combination you wish to use. You can also change your institution after logging in.

The dashboard for your user role appears.

**How to Find Test Results**

**How can I use the dashboard to view my overall test results?**

When you log in to the AIRWays Reporting System, the first thing you see is the dashboard where you can view overall test results for all your tests, listed by test. Teachers can also view a list of their students.

**NOTE:** If you do not see students in your school, you will need to change the reporting time period.

1. Go to **My Settings**, select **Change Reporting Time Period**.

2. Change the set reporting date to a date near the end of the test window (ex: 6/01/2019) to see students who were active at that time.
Figure 8. Teacher View: Dashboard

To view test results, click the name of a test (or 🔍 beside it).

Figure 9. Teacher View: My Students’ Performance on Test Report: Performance by Roster Tab
How can I see how well classes (rosters) performed in each area on the test?

You can compare the performance of your students in each area of the test using the topic sections. Click each vertical section bar to expand or collapse it. Please note that teachers can only see students who are rostered to them. District Administrators will have to create Rosters and assign them to the appropriate teachers so they can view student results.

Figure 10. Teacher View: My Students’ Performance on Test Report: Performance by Roster Tab

How can I access test results for an individual student on a particular test?

Teachers and school-level users:

1. Go to the dashboard and click a test name (or ☰ beside it) in the table of assessments. A page of test results appears.

2. Select the Performance by Student tab.

3. Click the name of an individual student (or ☰ beside it) in the report. The Student Performance on Test report appears.

District-level users:

1. Go to the dashboard and click a test name (or ☰ beside it) in the table of assessments. A page of district test results appears (the District Performance on Test report).
2. Click a school name (or beside it). The School Performance on Test report appears.

3. Follow the same steps as teachers and school-level users, starting with step 2.

Figure 11. Teacher View: Student Performance on Test Report

How can I view test results broken down by demographic subgroups?

To view test results broken down by demographic subgroups, do the following:

1. Click the pie chart button at the upper-right corner.

   The Breakdown Attributes window opens.

2. Select up to three student demographic categories.

   There is also an Include unspecified values checkbox, explained below:

Figure 12. Breakdown Attributes Window
Some students who complete tests do not have specific demographic information in the Test Information Distribution Engine (TIDE). These students are considered to have unspecified values.

To include data for these students, mark the checkbox.

3. **Click Apply.**

Data for each sub-group selected are displayed in the report.

**Figure 13. Demographic Sub-Group Breakdown Report**

- **Columns for each demographic sub-group category**
- **Row of data for Asian female students status**
- **View Details column with buttons to view the details for each row**
How can I view test results for a particular demographic sub-group or combination?

When viewing test results broken down by sub-groups, go to the row for the demographic combination you want to view and click the view button ⬤ in the View Details column on the left. A window opens, displaying detailed results for that combination. The report table is now laid out the same way as the original report.

How to Generate and Export Individual Student Reports (ISR)

How can I generate and export Individual Student Reports (ISR)?

To generate and export an Individual Student Report (ISR), use the Student Results Generator. You can select any combination of test reasons, assessments, and students in order to generate either a single ISR or multiple ISRs at once.

You may want to use the Student Results Generator to simultaneously print large numbers of ISRs.

1. Click the student results button ⬤ in the upper-right corner of the page.

Figure 15. Dashboard
The **Student Results Generator** window opens.

Depending what page you open the Student Results Generator from, the options available to you may be prepopulated or preselected. (The filters applied to the page have no effect, however.) You can change the selections.

2. Starting at the left, click the section bars to expand the sections or use the **Next** and **Previous** buttons to navigate them. Within each section you must make selections: first test reasons, then assessments, then students.

   a. The **Select Assessments** section groups tests by subject and grade. Mark the checkboxes beside the tests or groups of tests you want to include in the report, or mark **All Assessments**.

   ![Select Assessments Section](image)

   Figure 16. Student Results Generator Window: Select Assessments Section

   c. The **Select Students** section contains a list of classes (rosters) (if you’re a teacher or school-level user) or schools (if you’re a district-level user). Mark the checkboxes for the schools, classes, and/or individual students you want to include in the ISRs.

   - Sometimes the list of students is truncated. You can display the entire list by clicking **Click to Load More**.

   - Marking the checkbox for a student in one class (roster) or school also marks it anywhere else the student appears, and the same goes for clearing the checkbox.

   - To search for a particular student, enter their ID in the field at the upper-right corner of the window and click **Search**. The student and all their assessments and test reasons are selected, and all your previous selections are cleared.
The **Selections** section displays a count indicating the total number of students for whom ISRs will be generated.
3. From the two Report Type options in the panel on the right, select ISR. The Selections section shows the number of ISRs to be generated, and more options appear below.

Figure 18. Student Results Generator Window: Select Students Section

4. If you’re generating multiple ISRs, then under Report Format, choose either a single PDF for all the ISRs, or a ZIP file containing a separate PDF for each one.

5. Under PDF Type, select one page.

6. Click Generate. Once ISR generation is finished, the Inbox contains the new ISR(s) available for download.
